Since 2009, Ed Myers has been creating beautiful paintings (inspired by the human form) that feature hidden images of women inside each glass of wine. His digital process and modern compositions, make them quite unique. The series, which he calls "Taste" has been widely successful in Florida with local patrons, wineries and restaurants. In 2016, Ed Myers will be traveling across the country from Florida to California, and states in between, to offer his collection to those who have not had a chance to see his work in person in the southeast. Whether you are interested as a private collector or would like to add charm to your vineyard, the "Taste" limited edition series is a great conversation piece.
